

# Writing/Reading Syntax

- “Turn on” syntax checking when adding new feature(s)
  - turn syntax checking back on

# DI - Design Intent

- DI means Design Intent
  - aka Architecture
  - aka Engineering
    - (Engineering is not coding, Implementation is coding)
- Q: How do we emphasize DI while de-emphasizing unnecessary details?
  - e.g. Q: how to de-emphasize syntax and syntax checking?
